Passed Somewhat by Common Council—Total is \$52,706.

The common council has fixed the estimates for the coming fiscal year for presentation at the city meeting on Monday, December 6, the total being slightly less than the previous year. The total for 1911 is \$52,706.25, as compared with \$52,976.25 for 1910. The committee recommended slight changes in the department, including the increasing of the amount for old streets from \$5,000 to \$5,500, for curbs and gutters from \$600 to \$1,000, and the amount for street lights from \$4,500 to \$5,000. For several years past additional lights have been installed with no increase in the appropriation, consequently the department has run behind.

## Westerly Students Defy Authority

**Members of Fraternities Refuse to Disband—Rebels  
Suspended from High School—Clerk Crandall of  
Third District not Candidate for Re-election—Red  
Men's Entertainment a Success.**

The plot thickens in the play for supremacy now going on between the school committee, Mrs. Spicer, Morgan Smith, the superintendent of schools, William H. Holmes, Jr., the principal of the Westerly high school, John H. Sawyer and the eight students who have been suspended because of membership in a secret society, designated as H. T. S., which has school authorities propose to suppress. Some time ago, the school committee gave orders that there should be no more initiation of members into that or any other secret society of the school after October 20, 1910, and further that the society would not be tolerated in the school. Since then two members have been initiated in violation of the school rules and the secret's influence is still exerted in school matters. Hence the suspension of the members of the present student body, the graduates, of course, being beyond the jurisdiction of the school committee.

Tuesday evening a joint session of the school authorities, the eight suspended students, and their fathers, for nearly two hours was a lively discussion, after which the school representatives were in executive session until midnight.

Wednesday morning the suspended members were handed a slip of paper for signature, declaring that they would withdraw from the membership in the M. V. C. society while they were students of the Westerly high school.

This the boys declined to do. They also turned down the proposition to withdraw from the membership in the M. V. C. society while they were students of the school. The boys stand unchanged and the M. V. C. boys are still locked out from the school, and with no change of sentiment in sight.

The M. V. C. club is an old organization, exclusive and limited in its membership. As all the members desired to be, were not permitted to join, they formed a rival society designated as the H. T. S. The membership of 56, all active members of the Westerly high school.

The school authorities have now started in to abolish that society, and on Wednesday each member was given a copy of paper for signature, which declared that they would withdraw from membership while students in the Westerly high school.

The boys declined to affix their signatures and they were given until Thursday morning to return the papers properly signed or take the consequences. It is believed that if the papers are returned they will not bear the autograph of any member of the H. T. S. society. Therefore, they will be probably suspended, as are the members of the rival M. V. C. society.

The other secret society of the school, known as the T. S. J., is composed entirely of girls. Several months ago an effort was made to convince the school authorities that this could not be considered a school society. It is understood, however, that the T. S. J. is in the same category with the M. V. C. and the H. T. S. and will receive like treatment.

The school authorities have given this matter long and serious consideration and gave to the members of these societies that addition to membership must cease and that the societies would not be tolerated as they created a rivalry and feeling in the school that was a serious detriment.

Edward G. Crandall, the efficient clerk of the third district court, who has held the office since its creation about six years ago, is not a candidate for re-election and will resign his services when the present term expires next February. Mr. Crandall, although not a lawyer, is well versed in law, and when acting as judge in the absence of Judge Williams, his decisions were always strictly within the law, and accepted as such by the attorneys in the cases on trial. Mr. Crandall was before becoming clerk of the court, the high sheriff of Washington county, an office which he filled to the complete satisfaction of the people.

He served in the civil war and is a member of Redwood post, G. A. R., and resigns the clerkship simply to be relieved of the work and responsibility, and take life easier.

Already there are aspirants for the clerkship, as vacated by Mr. Crandall, among them being Attorneys Clarence E. Roche and Everett A. Kingsley.

The alumni members of the M. V. C. society held a meeting Wednesday afternoon in the office of the Industrial Trust company. The members of the society who have been suspended from the Westerly high school were present.

Undoubtedly by the opposition to the M. V. C. and the H. T. S. societies of the Westerly high school, the students not affiliated with either of these societies are planning to form a new secret society to be known as the A. O. G. society.

The Westerly high school boys who are below the average in studies and who played in the football game on Thursday night, have been penalized. They will not be permitted to

Some of Westerly's progressive people are advocating a paid fire department for the Westerly fire district, and to have the chief engineer serve as janitor of the central fire house and care for the fire apparatus and the fire alarm system, in addition to directing the work of the paid firemen when battling with blazes.

The consecrating bishops will be the Right Rev. Bishop Daniel Sylvester Tuttle of St. Louis, Mo., presiding bishop; the Right Rev. Bishop of the Episcopal church of the Diocese of New York; the Right Rev. Bishop of the Episcopal church of the Diocese of New Jersey; the Right Rev. **WATER SITUATION.**  
Being Discussed in New Britain—Special Meeting of Finance Board.

A New Britain correspondent writes: The water department has been discussed with increased interest and the people are waiting for the coming meeting of the finance board, which has been anticipated. The commission are preparing their figures to present to the finance board, and it is expected that the water rate will have an estimate of the mark ready. It was said last night that after the water department returns the money taken out of the water rents account the remaining \$100,000 worth of unexpended money will be used to complete the contracts. This information came from a high source and a man in a position to know about the water department work. The finance board will have to vote the money necessary to complete the work under way, but what the public wants is a much more strict account of the way the money is being spent than the present system of consolidated accounts which will prevent contractors running up to such enormous figures as have been known to be paid for water work.

The contract for the dam was run up to \$25,000 already, with \$2,000 more necessary to complete the work.

**HARTFORD MAENNERCHOR**

This committee has secured an option on some property on Chapel street and the society will undoubtedly purchase this property and remove from its present quarters in Germania hall on Morgan street when the present five-year lease expires in May, 1912.

**FELLOWSHIP MEETING**  
Notes 23d Anniversary of Institution—To Meet Next at Ledyard.

About twenty members of the Congregational church went by bus to the fellowship meeting held at the Road church. The sermon in the morning was by Rev. S. M. C. Galt of Pawtucket. Wednesday was the 23d anniversary of the institution of the fellowship meetings. Reports were made by the different churches of the churches that are in this territory, which includes Mystic, Stonington, Pawtucket, Road church, North Stonington and Ledyard. Each church gave a fine report of its progress in the past year. The fellowship meetings are held on the Union of Spiritual Forces, with reference to the laymen. Charles W. Wheeler of Mystic opened the discussion and was followed by Dr. James H. Weeks, Jr., of Stonington. During the business meeting an invitation was read from the Ledyard Congregational church asking all the churches to be present at the 10th anniversary of the church, Dec. 11 and 12. It was decided to hold the next meeting at that place.
